v. 2.1

MR. REDDOUT

18/19 COMPUTER GENERATED ART

Victor Senior High School • Room 002 • Mr. Reddout • E: reddouta@victorschools.org

This is an introductory course for computer-generated design; this course will focus on current technology being used by professional artists as tools for enhanced image processing. You will use a variety of programs such as Adobe Photoshop, Illustrator, and Corel Painter to create works of art. The goal of this course is for you to gain an understanding of the important role computers play in current occupational fields in art and how it effects our every day lives. All assignments will be created on, submitted by, and graded through the use of computers.

MATERIALS

- large storage USB Drive (10GB+)
- sketchbook (mandatory!)
- drawing utensil

RESPONSIBILITY

You are responsible for knowing where your materials are being saved, that you are saving frequently, and the orginization of your materials on your computer. The suggested flash drive can help aid in this organization. You are responsible for making sure assignments get turned in ON TIME and in the correct location. If for any reason work will not be completed by the deadline it is YOUR job to come make special arrangements with me, and to also alert me when the work is completed.

SOME GUIDELINES

RESPECT

1. Follow all directions the first time
2. Use only appropriate language
3. Respect yourself, others, and property
4. Arrive on time, on task
5. Clean up after yourself!
6. Make up lost time
7. BE WARNED. Disruptive behavior slows down the educational process for everyone if it becomes a constant occurrence you will be asked to leave.
8. Ask for help! Ask a neighbor, ask Google, ask me, ask Dorfoy, ask Denner, ask Duckworth.
9. Cell phones are allowed but with discretion. You elected to be here.
10. Music is encouraged while you work
11. Finally, give me your best

CLEAN UP & MAINTENANCE

Everyone is required to clean up his/her own workspace, ONLY when the teacher says it is time. There is NO CLEANING UP EARLY! Please make sure computers are turned off, pens are returned to the teacher station, chairs pushed in etc. RESPECT ALL OF OUR COMPUTER SUPPLIES! You have no idea how lucky we are to have such technology!

ASSESSMENTS

PROJECTS:50%

All work will be graded objectively. Grades are based on how you fullfill the requirements of the project(s), your level of effort, your creative solution, and your use of time. You will lose 2 points for each week your project is late. Projects are a key component of every art course. Each project will have a specific set of requirements and a rubric. You will find these on our google classroom at the start of an assignment. You will submit all projects and rubrics digitially for grading. After your work has been evaluated you will have an opportunity to improve it and resubmit it for a new grade. *All projects are due at the end of the quarter.

WEEKLY PROCESS: 50%

Process + participation grades are given every other week. These are determined based upon behavior, effort, participation, completion of clean-up tasks and making use of your time in the lab. Students who disrupt others, are off task, sleep, turn in late work, fail to clean up, rush through assignments and projects will receive extremely low process grades. This section of grades is also for in class or practice assignments that are not weighted as heavily as a project.
